Artistic Process: Creating
5th Grade General Music
General Description of the Assessment Task

Using pieces currently integrated into classroom instruction or musical pieces studied independently, students will select specific sections that exemplify technical/stylistic/artistic challenges to overcome; work toward improving the performance quality of identified challenges; demonstrate and document processes for addressing the challenges; and demonstrate and reflect upon achievement. Individual teachers can determine the length of time required to complete the assessment, but Assessment Strategy 1 could occur in one class period, Assessment Strategy 2 must allow students sufficient time to develop and refine their composition, and Assessment Strategy 3 and 4 could occur within one class period.
Model Cornerstone Assessment, 5th Grade General Music: Creating

**Imagine**

**Assessment Strategy 1**
Teacher engages students in echo patterns and call/response phrases. Then observes students echoing phrases, responding to calls, and improvising using elements of music to express purpose/intent.

**Plan and Make**

**Assessment Strategy 2**
Students choose a purpose/context for which to compose a piece using at least three elements of music and documents the sequence of their musical ideas using traditional notation, iconic notation, or a recording device.

**Evaluate and Refine**

**Assessment Strategy 3**
Students record a completed first version of their compositions. Then have three peers provide feedback to guide further refinement.

**Present/Perform**

**Assessment Strategy 4**
After the students have rehearsed and refined their compositions using the feedback from Assessment Strategy 3, the teacher assists students in recording final versions of their compositions and completing the Composition Presentation Worksheet.

- **MU:Cr1.1.5a** Improvise rhythmic, melodic, and harmonic ideas, and explain connection to specific purpose and context (such as social, cultural, and historical).

- **MU:Cr1.1.5b** Generate musical ideas (such as rhythms, melodies, and accompaniment patterns) within specific related tonalities, meters, and simple chord changes.

- **MU:Cr2.1.5a** Demonstrate selected and developed musical ideas for improvisations, arrangements, or compositions to express intent, and explain connection to purpose and context.

- **MU:Cr2.1.5b** Use standard and/or iconic notation and/or recording technology to document personal rhythmic, melodic, and two-chord harmonic musical ideas.

- **MU:Cr3.1.5a** Evaluate, refine, and document revisions to personal music, applying teacher-provided and collaboratively-developed criteria and feedback, and explain rationale for changes.

- **MU:Cr3.2.5a** Present the final version of personal created music to others that demonstrates craftsmanship, and explain connection to expressive intent.

**Plan and Make:** Select and develop musical ideas for defined purposes and contexts.

#### Elements of Music Selected
- **Explanation was not connected to how each element of music will be used to convey purpose or context.**
- **Explained with limited clarity how each element of music will be used to convey purpose or context.**
- **Clearly explained how each element of music will be used to convey purpose or context.**
- **With enhanced creativity clearly described how each element of music will be used to convey purpose or context.* **

**MU:Cr2.1.5a** Demonstrate selected and developed musical ideas for improvisations, arrangements, or compositions to express intent, and explain connection to purpose and context.

#### Musical Ideas Connecting to Purpose or Context
- **Musical ideas did not reflect tonality, meter, and (if appropriate) harmonic sequence.**
- **Musical ideas demonstrated some challenges in reflecting tonality, meter, and (if appropriate) harmonic sequence.**
- **Musical ideas appropriately reflected tonality, meter, and (if appropriate) harmonic sequence.**
- **Musical ideas demonstrated enhanced creativity that are musically appropriate and reflect tonality, meter, and (if appropriate) harmonic sequence.* **

**MU:Cr1.1.5b** Generate musical ideas (such as rhythms, melodies, and accompaniment patterns) within specific related tonalities, meters, and simple chord changes.

#### Notation and/or other documentation
- **Documentation of musical ideas was unclear.**
- **More clarity needed in documenting musical ideas.**
- **Musical ideas were clearly documented.**

**MU:Cr2.1.5b** Use standard and/or iconic notation and/or recording technology to document personal rhythmic, melodic, and two-chord harmonic musical ideas.

*(Note from the pilot: Levels are not intended to be equally represented and the level marked with * was seldom used)*
### Evaluate to Refine Scoring Device

<table>

<th>Level 3 Meets Criterion</th>
<th>Level 4 Exceeds Criterion</th>
<th>Performance Standard</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Craftsmanship of Musical Ideas</strong></td>
<td>Craftsmanship and originality was unclear.</td>
<td>Limited examples evident of craftsmanship and originality through musical choices.</td>
<td>Demonstrated craftsmanship and originality exhibited by musical choices.</td>
<td>Included original, unique, or imaginative musical ideas and/or creative use of sound.</td>
<td>MU:Cr3.2.5a Present the final version of personally created music to others that demonstrates craftsmanship, and explain connection to expressive intent.</td>
</tr>
<tr>
<td><strong>Connection to Expressive Intent</strong></td>
<td>Provide limited explanation of how they used elements of music to convey expressive intent.</td>
<td>Provided general, but indirect use of elements of music to convey expressive intent.</td>
<td>Provided clear use of elements of music to convey expressive intent.</td>
<td>Provide creative and imaginative use of elements of music to convey expressive intent.*</td>
<td></td>
</tr>
</tbody>
</table>

(Nota from the pilot: Levels are not intended to be equally represented and the level marked with * was seldom used)
Assessment Strategy 1 (Imagine)

**MU:Cr1.1.5a**

### Prerequisite Skills and Knowledge

**Improvisational/Compositional Devices (Imagine)**
- Rhythmic – use of repetition; rhythmic patterns; and silence (rests).
- Melodic – use of repetitions; melodic patterns, tones.
- Form – rondo (ABA, ABACA), AABA, theme and variations, and original form.

**Strategies for Improvising/Composing (Imagine)**
- Strategies for contrasting improvisations in a simple form using dynamics or articulation for variety.
- Strategies for creating two chord harmonic accompaniment to a melody.
- Strategies for varying expression.
- Strategies for adding rhythmic accompaniment e.g., ostinato).
- Independently create echo patterns, responses to calls, and improvisations.

### Teacher Preparation

- Review the [Imagine Scoring Device](#), and [Elements of Music Menu](#).
- Prepare and practice musical/rhythmic phrases as examples for the Elements of Music Menu.

### Assessment Environment Setup

- **Step 1 – Echo what is heard**: present rhythmic and melodic phrases of various lengths that include expressive qualities and timbres (e.g., singing, playing, moving, body percussion, beat box, or combinations) with students echoing what is heard.
- **Step 2 – Call/Response**: Students take turns being the caller of short phrases using a variety of rhythms, melodies, expressive qualities, and timbres. Peers respond without hesitation, with response representing a similar length of phrase.
- **Step 3 – Manipulate musical ideas**: Model examples of each device found on the [Elements of Music Menu](#). Ask students to improvise with partners using each technique or choose specific techniques reflecting a variety of musical contexts.

### Assessment

**The teacher:**
- observes students echoing phrases, responding to calls, and improvising with compositional techniques from the [Elements of Music Menu](#).
- score observations using the [Imagine Scoring Device](#).
# Assessment Strategy 2 (Plan and Make)

*MU:Cr1.1.5b, MU:Cr2.1.5a, and MU:Cr2.1.5b*

## Prerequisite Skills and Knowledge

### Improvisational/Compositional Devices (Imagine)
- Rhythmic – use of repetition; rhythmic patterns; and silence (rests).
- Melodic – use of repetitions; melodic patterns, tones.
- Form – rondo (ABA, ABACA), AABA, theme and variations, and original form.

### Strategies for Improvising/Composing (Imagine)
- Strategies for contrasting improvisations in a simple form using dynamics or articulation for variety.
- Strategies for creating two chord harmonic accompaniment to a melody.
- Strategies for varying expression.
- Strategies for adding rhythmic accompaniment (e.g., ostinato).
- Independently create echo patterns, responses to calls, and improvisations.

## Teacher Preparation

- Prepare copies of the [Plan and Make Worksheet](#). *(click for .doc version)*
- Have staff and chart paper.

## Assessment Environment Setup

- Teacher hands out Plan and Make Worksheet and pencils, then reviews instructions.
- If you would like students to record their ideas, have charged recorders available.
- Put students in groups of two reinforcing that:
  - Each person contributes equally.
  - Cooperation is essential (listen to each other’s ideas).
  - Follow all directions given by the teacher.

## Assessment

The teacher instructs students to:
- Choose the purpose or context for which to compose their piece.
- Select at least three elements of music with which to compose.
- Complete the Plan and Make Worksheet by sequencing their selected elements of music and identifying purpose or context.
- Compose and document musical phrases using traditional notation, iconic notation, or via recording device.

The teacher scores the worksheet and documented phrases using the Plan and Make Scoring Device.
Plan and Make Worksheet

Student Names: 1. ___________________________ 2. ___________________________

Deciding together, what is the purpose or context of your composition (e.g., celebration, event, pop radio, music to accompany a movie). __________________________________________________________________________

INSTRUCTIONS

- Create musical ideas by experimenting with elements of music and choose which ones to use in your composition that you feel would be appropriate for the purpose or context you have chosen.
- Circle at least three elements, each from separate columns, for your composition (you may use more than three from the chart).

<table>
<thead>
<tr>
<th>Elements of Music Menu</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Rhythm Patterns</strong></td>
</tr>
<tr>

</tr>
<tr>
<td>Duple (2/4, 4/4)</td>
</tr>
<tr>
<td>Triple (3/4, 6/8)</td>
</tr>
</tbody>
</table>

- List the elements of music in the section where they will be incorporated (beginning, middle, end).
- Describe how you plan on using them to convey the selected purpose or context.

<table>
<thead>
<tr>
<th>Section</th>
<th>Element of Music Selected</th>
<th>How will this element of music be used to convey the purpose or context in your composition?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Beginning</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Middle</td>
<td></td>
<td></td>
</tr>
<tr>
<td>End</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Create melodic, rhythmic, and two-chord harmonic phrases, then appropriately document the phrases using staff (traditional notation), chart paper (iconic notation), or audio recording device.
# Assessment Strategy 3 (Evaluate and Refine)

**MU:Cr3.1.5a**

## Prerequisite Skills and Knowledge

- How to assess self and others using provided or developed criteria.
- Gather feedback from others and refine musical work.
- Knowledge of and comfort with self-recording.

## Teacher Preparation

- Review the [Evaluate to Refine Scoring Device](#).
- Prepare recording devices.
- Prepare sufficient copies of the [Evaluate to Refine Worksheet](#). ([click for .doc version](#))

## Assessment Environment Setup

- Teacher and students review instructions emphasizing that when recording, the student is to state name(s) prior to recording the first draft.
- Students practice and record the first draft of their composition.
- *(Teacher reminds students that they may disagree with feedback provided and also develop new ideas during the process)*

## Assessment

The teacher:

- provides each student with three copies of the [Evaluate to Refine Worksheet](#) on which their peer reviewers provide feedback.
- asks students to (on their own or organized by the teacher) play their composition live or recorded for at least three other students who will write feedback on the [Evaluate to Refine Worksheet](#).
- ask students to respond to the feedback as indicated on the worksheet, then refine their composition until it is ready to record as a final version.
- Score the Evaluate to Refine Worksheet and documented phrases using the [Evaluate to Refine Scoring Device](#).
INSTRUCTIONS:

- Rehearse your composition in preparation for your first recording.
- Record a first completed draft of your music **stating your name(s)** on the recording before your performance.
- Have **three** students provide feedback to help you refine your compositions:
  * Describe to each how you used the elements of music in your composition to connect to the purpose or context.
  * Then **play** the recording so the peer reviewers can provide feedback on this worksheet (one per reviewer).
- Collect the peer reviewers’ worksheets and **complete your response** to the feedback.
- Then **Refine** your music by applying appropriate feedback.

Composer completing this worksheet ____________________________________________

Other composer’s name ____________________________________________________

INSTRUCTIONS:

- Record your completed version of the composition. (State your name(s) first, then perform the piece).
- Individually complete this reflection of your composition.

1. What qualities make your creation unique, original, or imaginative in connecting to your selected purpose or context.

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

2. What is unique about how you used expressive elements of music to convey a specific purpose or context?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
Differentiation Strategies

(Instructional approaches that respond to individual student needs and strengths to maximize student learning and success.)

- pre-assess to determine levels of student prior knowledge and abilities
- determine and teach to reduce learning gaps allowing alternative forms of communicating expectations to students as needed
- create independent enrichment/enhanced work for students who show mastery
- group students to accommodate learning needs
- use provocative, complex questioning to stimulate high level thinking
- devise open-ended tasks to allow students of all ability levels to achieve success at their own levels
- tier tasks to address levels of abilities and support students within each tier,
- assure that students are given choice in tasks in order to address their learning styles, interests, etc.
- allow students to respond to tasks in alternative ways if the defined response in the MCA hinders an individual’s means of demonstrating learning.

**Extension Experience:** Have students write in journals and/or essays reflecting on their composition experiences. Using the language of the Composition Rubric, they should include why their melody worked or didn’t work, what they will do differently in their next compositions, and an assessment of their efforts on the project. A brief reminder of the Six-Trait Writing Model might be in order.
