

dear steven Upton.

my name is xxxxxxxx i am from xxxxxx. My sister has some kind of parasite coming out of most of her pores in the face. we have spoken to Dr's here in xxxxxxxx. but nobody is doing anything about it. she has even filmed this happening. she also has pictures of a thing with wings coming from her mouth. i have saw little black anteniors coming through her chin, when her face has got hot. this is when a lot of activity seem to happen. it's like something out of a horror film. the Dr at the accident and emergency gave her anti-istemins. I don't think people believe her. do you know what i can do my sister and i are at a loss. She has lost a lot of weight the last year. i am so worried. please what is it?

yours sincerely xxxxxxxxxxxxx

ps. i will give you her email address so she can send you the pictures herself xxxxxxxxxxxxx.
