AGGRESSION RESEARCH LAB (ARL)

Dr. Christopher Barlett and the ARL focus on studying the predictors and consequences of aggression. Below is a brief synopsis of what we study:
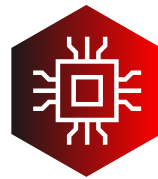

CYBERBULLYING

Theory development, scale creation, longitudinal designs, and prevention

PROVOCATIONS

Mitigating information, experimental manipulations, emotion regulation

INTERVENTIONS

Aggression reduction, best practices, re-appraisal and anonymity changes

PERSONALITY

Need for cognition, fear of retaliation, trait aggression, Dark Triad
