

# PSYCHOLOGY MINOR

A psychology minor provides students with knowledge, training, and skills that make them more prepared and marketable for a host of professional and educational opportunities. Theory, content, and methods of psychology complement many other academic disciplines.

**Requirements: 18 credits**

**PSYCH 110:** General Psychology (3 credits)

**PSYCH 350:** Experimental Methods in Psychology (3 credits)

**PSYCH electives:** choose based on interest and offerings (12 credits)

Below are PSYCH elective options for the minor organized by different specializations within K-State's psychology department. You can focus your electives in one specific area or choose a variety to give you a breadth of knowledge.

For course information and pre-requisites, go to: <https://www.k-state.edu/psych/undergraduate/courses.html>
