

RISK MANAGEMENT CONNECTION

an introduction to integrated risk management

Risk Management Connection is a semester-long program designed for sophomores to explore topics in risk management. New and evolving risks challenge business and society every day. Learn the fundamentals of interconnected risks and get connected to academic and career opportunities in risk management.

INTERDISCIPLINARY EDUCATION

attend four monthly seminars during the spring 2018 semester

DIVERSE PERSPECTIVES

network and collaborate with peers from different majors across campus

INTERNSHIP SEARCH RESOURCES

receive exclusive internship announcements and invitations to company recruiting events

ADVANCED OPPORTUNITIES

learn about advanced educational opportunities including the CRMER Student Fellowship program and undergraduate certificate in risk management

WHO SHOULD APPLY

- sophomores from all majors with a minimum 3.25 GPA and an interest in learning more about risk management are encouraged to apply
- if you are a junior or graduate student with at least 3 semesters left in your academic program consider applying to the CRMER Student Fellowship program

ADDITIONAL DETAILS

- participants will meet as a group monthly by appointment during January - April 2018
- students who complete the program are encouraged to apply to the K-State Student Fellowship program offered for juniors and graduate students
- participating in the Risk Management Connection program does not guarantee nor is it required for entry into the CRMER Student Fellowship program

application deadline Wednesday, October 11th
