ASSOCIATED STUDENTS OF KANSAS - Brett Lambert - Direct quote:

I come to you this evening in a spirit of dismay. For in the last forty-eight hours I have witnessed the unfolding of one of the most disgraceful, cowardly and degrading actions taken by the Kansas Legislature in recent years. I have written my report on paper this evening because I do not wish to miss any point. The students of this university have a right to know all the events that pertain to the passage today of a Senate House Conference Committee report asking that the minimum age to consume 3.2 beer in this state be raised to 19. Some may recall that I came before this body some eight months ago to tell you that we felt confident that the drinking issue was behind us. We are mistaken. In November the fight was on. Rev. Taylor, feeding off the fears of many, as seems to be his style, pushed harder than ever for an increase. The challenge was presented. A.S.K. accepted. We began to feel out the waters. We questioned members of both parties and from both houses as to the chances of passage. And from all corners of the Capitol the message was the same. "Too much pressure. Something has to be passed. Doesn't much matter what." At that point A.S.K. had to make a decision. We could either reside ourselves to the periphery, and let the legislation move ahead unmolested, or we could fight. After long meetings and careful consideration to all possible outcomes and ramifications, it was the decision of the A.S.K. leadership to fight. And fight we did. I am proud to say that, unlike many of our adversaries, we fought a fair battle. We were sincere in our efforts, honest in our speech and sure of our facts. But, as I have painfully discovered in the last several days, sincerity, honesty and a consideration for facts are NOT the ingredients to a successful fight in the Kansas Legislature. It is important to recall that a vote, as is the normal process, was never taken in either house before the conference committee was formed. It is important to remember that the conference committee, a supposedly unbiased body, was comprised of extremely biased men. It is important to remember that this is an election year and that students seldom exercise their responsibility to vote. It is important to recall that there is a possibility that the Open Meetings Law has been either violated or molested by this hoax of a committee. At any rate, morals and perhaps even laws aside, the Conference Committee voted out this afternoon an increase. They did so much to the dismay and frustration of many people, including myself, who once believed in the process. On Monday or Tuesday the bill will go before the Senate. Sen. Doyen and his cohorts have vowed that passage shall occur. And although if a vote were to have been taken today I would have felt confident of a sure and defeat, it is difficult to say what will transpire in the next several days. For if enough pressure is brought to bear by the Senate leadership, many of our votes will surely collapse. In conclusion I simply want to state how political, in the worst sense of the word, this action has been. If the Senate was truly anxious to save the lives which this bill is purportedly capable of doing, then it should be passed, at 21, immediately, and it should be put into effect April. But no, that is not the case. For most of the members of the Senate are not voting to save lives, they're voting to save themselves.

This is obvious by the grandfather clause which is part of the bill. In other words the bill would not affect anyone for over a year, until after the election.

This cowardly action, more than any other, underscores the ridiculous nature and motivation behind this legislation.

And although the fate of this bill may be unchangeable, myself and others in the Association, will continue to fight, we will continue to write and petition and call until every last hope for defeat is lost.

I am now open for any questions.

**TASK FORCE ON SHUTTLE SERVICE FOR TEMPORARILY HANDICAPPED -**

Lori Leu, chair - The task force was established in the Fall of 1983 to research possible funding alternatives for the operation of the shuttle service for temporarily handicapped from outside groups and agencies and the feasibility of instituting a user fee. A phone survey was conducted to assess the possible success of a user fee. The Kansas Easter Seal Society was approached for funding. Notification of funding will not be received until later this month. The executive director projected a maximum grant of \$2000. The task force

recommends a \$1/day user fee and calculated that if the shuttle averaged 5 riders/week the service could generate almost \$800/year. The user fee would be collected at the SGS Office in the K-State Union. Ideally, the service could be expanded to operate off-campus and during evenings and weekends. Also, the goal of self-maintenance in terms of funding may be possible in the future. An evaluation of the fee structure should be conducted after 2 semesters by everyone involved.
