RESOLUTION 85/86/2

PRESIDENT REAGAN'S CUTS IN EDUCATION

BY: Mark Jones & Steve Brown

WHEREAS it is the philosophy of this body that no deserving student should be denied access to higher education by financial barriers if they are at all avoidable, and

WHEREAS the Fiscal Year '86 President's budget contains massive cuts in student financial assistance, including an absolute end to aid to students from families with over \$32,500 in annual income, severe reductions in the Guaranteed Student Loan, National Direct Student Loan, and Pell Grant programs, and the elimination of the Student Educational Opportunity Grant and State Student Incentive Grant programs, and

WHEREAS should these cuts become law, many Kansas State University students stand to lose all or part of their federal financial assistance, and

WHEREAS these reductions follow four years of large-scale aid cuts, and

WHEREAS the impact of these cuts on the ability of a student to afford higher education, particularly at a medium-cost public university such as Kansas State University, would be devastating

BE IT RESOLVED THAT:

SECTION 1. The Kansas State University Student Senate implores our representatives in Congress to reject these massive reductions in aid targeted at a particularly vulnerable group, and instead opt for maintenance of these vital programs.

SECTION 2. The Chairman of the Student Senate be directed to send a copy of this resolution to each member of the Kansas congressional delegation, President Ronald Reagan, Secretary of Education and Secretary of the Treasury.

**COLISEUM MARKETING & PRO FORMA STUDY
REQUEST**

BY: Tulin Artan, Susan Baird, Daniel Grubb, Ben Lange, Narita Peak, Justin Sanders, Catherine Sayler, Christopher Steineger, Virgil Wiebe

WHEREAS the students of Kansas State University are pledged to contribute over \$7 million toward the construction of the Fred Bramlage Coliseum (Senate Bill 81/82/21), and

WHEREAS a market study and a pro forma study are standard procedures in the planning of any large construction project (see Collegian 2/14/85 inc. ref. for description of studies), and

WHEREAS a market study and a pro forma study can insure that the monies donated will be used in the most cost effective manner, and

WHEREAS a market study and a pro forma study were recommended by the original architects (Ralph Anderson of Cram-Anderson of Houston, TX and Bill Livingston of Gossen and Livingston, Assoc. of Wichita, KS), and

WHEREAS these proposals were rejected by the Negotiating Committee for the coliseum only as cost-saving measures, and

WHEREAS several questions remain unanswered: 1) The annual utility costs are unknown, as is whether revenue generated by the coliseum will be able to cover such expenses; 2) A paved parking lot will be necessary, due to the winter conditions of the basketball season. The funds for paying have not been included in the proposed coliseum budget, and it is uncertain where this funding will come from; 3) Of the Big Eight universities, Kansas State has one of the lowest populations within a 70-mile radius. Many question whether this population can fill the proposed coliseum for athletic events as well as concerts, lectures and other activities. Moreover, since the hotel/motel accommodations in the Manhattan area amount to 629 rooms, it is uncertain whether NCAA tournaments or any large activity can be catered to by the community support services, and

WHEREAS a market study and pro forma study would answer these questions, and

WHEREAS these studies would require approximately 30 days, thus not seriously jeopardizing the time table for the coliseum project

BE IT RESOLVED THAT:

SECTION 1. Student Senate urge that a formal market study and pro forma study be completed as soon as possible and no later than the third week of April.

SECTION 2. The administration is requested to notify Student Senate of whether they will comply with this request by Wednesday, March 13, 1985.

SECTION 3. Student Senate shall review personnel selected for the studies.

SECTION 4. The Student Body President shall consider calling a special meeting of Student Senate on Monday, March 18th, or Wednesday, March 20th, to review personnel for the studies.

SECTION 5. Results of the studies, if made, will be made available to Student Senate as soon as possible.

Marcia Muller moved to increase the Director's Salary from \$325/month to \$350/month (from \$3,250 to \$3,500 for 10 months), with the increase coming from Reserves for Contingencies.
Kim explained the reason for requesting the increase. Because the salary is so low, it is difficult to hire a truly competent director. Individuals in similar positions in the Family Economics Dept. make \$500-\$600/month for a 16 hr. week. The CRB Director puts in over 20 hrs./week. Also, the salaries under all the Social Services are far below what they should be. In 1972 the CRB Director was making \$2,700. For 1984-85 she received \$3,000, which is only a \$300 increase over a 12-year period. At the \$325/month which Finance Committee is recommending, the director would have to get a second job to make ends meet, which means taking time away from CRB. At least the \$50 increase looks a little better and it is a step to increasing the salary to a competitive level.
Questions were asked and debate was entered into.
Jeff Vander Laan called the question. Failed.
Marcia Muller moved to increase Dues, Memberships & Subscriptions from \$41 to \$56, to cover a third subscription for Shelter Force, a tenants rights bulletin from the #1 landlord-tenant agency in the state which is located in Topeka.

Mark Galyardt stated that Finance Committee received 2 appeals to the Tentative Allocations Bill. They were from the FONE and SGA.

The FONE requested \$100 more, with \$75 in Printing and \$25 in Office Supplies. This would increase their allocation from \$10,493.85 to \$10,593.85.

The Student Governing Association is requesting a \$120 decrease. There would be a \$220 decrease in Jenny's salary and a \$100 increase in Dues, Memberships and Subscriptions to cover \$100 in dues to the Student Advisory Committee to the Kansas Board of Regents. This would decrease their allocation from \$31,888.50 to \$31,768.50.

With these amendments, which are recommended by Finance Committee, the Final Allocation Bill totals \$795,947.23. We have \$789,833.00 to allocate. This is a difference of \$6,114.23, which Finance Committee is recommending be taken from Reserves for Contingencies. As a reminder, in the Closing of Accounts bill we returned \$12,013.47 to Reserves for Contingencies.

Sally Routson noted that Parachute Club has started to pay back their loan with a \$559+ check, which goes into Reserves for Contingencies.

Dr. Miller went over the Coliseum Program Background Papers.

He emphasized the concept of a multi-purpose, high-quality coliseum to accommodate intercollegiate basketball and other, non-athletic, programs and performances.

All general use (as opposed to intercollegiate athletic) design objectives have been retained.

Basketball coaching offices and sports press facilities have been retained.

Facilities for all other athletic administrative offices and VIP lounge will be designed as add alternates to the base bid.

Multiple use of facilities (room that can serve both as basketball officials' and theatrical or program stars' dressing rooms) remains incorporated.

The number of backed spectator seats has not been changed, while the number of bench-type spectator seats has been reduced.

Retractable seating. areas have been reduced, thus reducing the square footage available on the main floor.

The changes incorporated in the revised program document reduce the programmed net square footage from 175,620 to 145,881. Programmed net square footage excludes public restrooms, circulation, structural, mechanical equipment and custodial spaces.

The design process currently in progress will verify whether or not a quality design encompassing the proposed features can be achieved within the budget. With the project architect’s successful resolution of these matters, the university community will have ample opportunity to evaluate the responsiveness of the design.

No decision to bid or complete the project will be considered prior to that development.

Comparison of Space Requirements (net square feet)

	8/85, as bid	9/85 program
Total spectator/performance areas	153,632	124,413
Athletic Administration offices	3,509*	3,366

Total Programmed Space	175,620	145,881

* There were 5,388 sq. ft. of office and 1,907 sq. ft. of lounge space “shelled-in”, in, the base bid. This space is to be considered as an add alternate in the upcoming bidding.

** Includes 500 seats on the arena floor.

APPROVAL OF MINUTES

OPEN PERIOD

FIRST READINGS

Senate Bill 85/86/27, Student Bond Refinancing Ag hoc Committee Recommendations for Use of the \$700,000.

Each group made 5-minute presentations, and questions were asked after each presentation.

\$70,000 is being requested for Ag. Judging Teams. The money would come from the Foundation account. Steve Ligon made the presentation and answered questions.

\$150,000 is being requested to make Anderson Hall accessible to the handicapped by putting in an elevator. The money would come from the Foundation account.

Gretchen Holden, Bruce cook & Jim Burns made the presentation and answered question, as did numerous other students.

The elevator is proposed to be added to the exterior on the southwest side of Anderson Hall.

The State will not make it accessible because it does not have classrooms.

It is estimated to take between \$35,000 & \$50,000 just to make the first floor accessible.

Another possibility was a ramp, but it has been deemed unfeasible because it would have to be 79 feet long.

A third possibility was a chair lift, which was also deemed unfeasible because it would be subject to vandalism and weathering. The doors of Anderson Hall would have to be wided and changed. The estimated cost would be \$50,000.

\$86,182 is being requested for the KSU Child Care Cooperative to make their facility in building "L" of Jardine Terrace a fully finished, permanent facility and would allow them to repay two loans (from Housing & Continuing Education at 0% interest rate). Errol Williams, a member of the Board of Directors, made the presentation. Questions were answered by Errol; Jana Messer, chair of the CCC Fund-Raising Committee and a member of the Board of Directors; Nancy Bolsen, CCC Director and member of the Board of Directors; Mary Harris, chair of the Board of Directors; Linda Hafer, CCC Treasurer & chair of the Budget Committee; and LaVerne Lindsey, Asst. Provost for Continuing Educ. & ex-officio member of the Board of Directors.

They need \$110,873. This amount, less the \$86,182 requested, would leave \$14,691 to be raised through fund-raisers.

Have a total capacity of 90 children (pre-schoolers & toddlers) at the present time. When fully completed, the capacity will be 240 children.

On January 21st they got their tax exempt status.

70% of their income goes to salaries, and almost virtually all the remaining 30% goes for food.

An infant care program. is badly needed, as is after school care.

Have 15 work-study employees.

80% of the CCC members are students.

\$23,600 is being requested for KSDB-FM to purchase equipment for use with the recently-donated tower gift and for a refurbished 1,000 watt transmitter. The money would come from the Foundation account. Lee Buller, KSDB-FM adviser, made the presentation and answered questions.

The \$23,000 is broken down as follows: \$7,105 for a studio-to-transmitter link system, 600 for 2 STL antennas, \$4,155 for a remote control system, \$1,650 for a receiver/monitor, and \$10,000 for the refurbished 1,000 watt transmitter.

The 200-Foot tower gift from KAKE-TV in Wichita has 30 more years of use and is valued at \$24,300. The land the tower is on is valued at \$15,000. The special line connecting the transmitter at the base of the tower and the antenna at the top of the tower are valued at \$4,000. The gift included the small concrete block equipment building and the fence around it.

KSDB-FM will be back to Student Senate for its normal allocation request.
