**STUDENT SENATE MINUTES
KANSAS STATE UNIVERSITY
APRIL 7, 1970**

The April 7, meeting was called to order by chairman, Bob Prochaska. There were 41 Senators present. Carolyn Wolfe, Doug Mermis, and Rich Bonebrake were late. Dale Ellis was excused absent. Sheri Goodpasture and John Van Deusen were absent.

CHANGE IN MINUTES

Dr. Kasper was excused absent at the March 24, meeting instead of absent as the minute's state.

ANNOUNCEMENTS

Bob Prochaska: Bound Legislation of the 1969-70 Senate can be purchased in the SGA Office for \$.25 per book.

New Notebooks are in for the Senators. They are free. Pick them up in the SGA Office and check your name on the pink sheet if Jenny is not there.

Bob Prochaska yielded to Steve Rees.

Steve Rees: We need help in the marathon and button selling. There has been alot of help from Senators. Need to sell alot more buttons. Talk to John Ronnau about selling them.

Bob Prochaska introduced Richard Blackburn and Don Miles.

Richard Blackburn: The Union was first built in 1956. Bookstore idea has been number 1 ever since the beginning of the Union but funds were not available to provide it. Now we will have a full-fledged Bookstore for the 1st time. Should be open Aug. 24, 1970. It shall be operated as a department of the Union. The Union is financed by student fees but no state funds. There are 100,000 sq. feet added to the Union in the new section. Money from the Bookstore will help operate other new additions. We expect it to make some profit. We also welcome the interest Student Senate is showing and we need and appreciate the ad hoc committee to the Bookstore.

Don Miles: The Bookstore will consist of 25,000 sq. feet on two floors. We will have an excellent supply. The upper floor will the supplies, etc. and the lower floor will be text books, general reading material and teaching aides, etc. There will be an enter and exit on both levels and also a check-out place. The isles will be 5 feet apart to avoid crowding. We will have the largest selling area in Kansas and one of the largest selling areas in the country. Will try to supply as much reading material, etc. for the best effect of the education of the students. The more books one has the better the education one will receive. There will be a walk-in section for books. There will be 15,000 different titles of books not counting text books. The new text books will probably be the same as Varney's. We have no idea about supplies. There will be a lot of adjustments once we get open in prices, etc. We will buy back used books in the Cats Pause in May. We can only buy back which may be used only in the Fall. The Cats Pause and Den will both go. The Cats Pause will be a store room and the Den will be a coat check area. The surplus goes to whatever the students wish. There will be 10-15 jobs in the new Bookstore for the students and about 29 full-time positions in the Bookstore which will not be students. Will buy books back on one/half of current list price if it has been requested by the faculty. There is just too many problems for one guy to have every book a student requests or wants. Students are financing the building of the Bookstore not the bookstore itself. A discount to the

students is not possible the first year. Don is in favor of what the students want. He is not in favor of a rebate system. No part of the Union is building up a large bank account. Will try to carry as much as we can. Will order something if we do not carry it and if it is in the catalogs. It will take a year to find out what is really needed and what we should carry.

Will be glad to show anyone the new addition of the Union. See Paula and she will be you out.

All four were voted on and PASSED.

Sheri explained what she had found out after checking into this.

Joe Rippetoe moved the question. Seconded. PASSED 24/5/2

Steve Doering voted against this bill. Reason is as follows:

I voted against this bill because I feel that:

1. Other commitments to this center are too vague and uncertain to warrant SGA’s financial support;
2. There are other possible sources of funds that have not been investigated thoroughly;
3. As the center is currently envisioned, it would have no real power or money to implement any innovations;
4. The proposed plan for University Government would provide for the development of educational innovations--at no or very little cost; and
5. This may establish a precedent similar to that established by the SGA’s acceptance of rowing team. There is no guarantee that anyone else will pick up this program whether it is successful or not.

Vassili Kanellakis moved to introduce Senate Resolution 70-9-5.

Seconded.

Mike Jones moved to friendly amend to strike “black” between two and students.

Dent explained the bill. The final vote on the apportionments would be taken at the regular session and not the executive meeting. The executive session is designed as that you can hear and think clearly without interruptions and noise from the gallery. It was discussed back and forth as to why we should or should not have a closed meeting.

Bob ruled to strike a clause in the third line "called at the discretion of the Senate Chairman" because only the Student Body President.

This is mainly Dr. Hoyt's project.

WHAT KIND OF CULTURE DOES MID-AMERICA WANT?

Cultivated taste-outward ornamentation that disguises inward uncertainty-has always been with us, and it flowers today in white suburbs throughout the United States. COMPOSITION: 1. President, 2. Vice Presidents, 3. Business Manager, 4. President of AAUP, 5. President-Faculty Senate, 6. Vice President-Faculty Senate, 7. Chairman of Faculty Senate Academic Affairs Committee, 8. Chairman of Faculty Senate Faculty Affairs Committee, 9. President of Student Governing Association, 10. Chairman of Student Senate, 11. Chairman of Student Senate Finance Comm., 12. President of Graduate Student Council, 13. Chairman of Union Activities Board, 14. University Attorney, 15. Assistant to the President

The following policy on Credit-No Credit was brought up before Faculty Senate. Whereas the Faculty Senate on April 14, 1970, passed a motion abolishing the 12 hours graded semester, effective February 1, 1970, a student must apply 100 graded hours toward a degree. No more than 20 non-graded credit hours may be applied for graduation and that a student may not take more than 16 hours of credit-no-credit courses in one academic year,

Be it resolved that:

1. All undergraduate students at Kansas State University may take any course outside his major field of study, for which he meets the normal prerequisites or obtains the consent of the instructor, on a credit-no-credit basis. Courses taken outside the major field which are pre-requisites for future courses within the major field may not be taken on credit-no-credit basis.
2. Colleges may offer courses on a credit-no-credit basis only, or on a mixed basis.

TABLED

3. In courses offered on a mixed basis the instructor will submit a letter grade on all students to the Office of the Director of the Records at the end of each semester. The records office will then record the letter grade, Cr., or N. Cr., on the students transcript depending upon the students choice made at the time of enrollment. For courses taken on a credit-no-credit basis, grades of C and above will be given credit, while grades of D and F will be given no credit. The decision of enrolling for a grade or credit-no-credit must be made at the time of enrollment. No change in the grading system will be made after registration.
4. No information will be supplied to the instructor to indicate whether a student is taking the course on a graded or credit-no-credit basis.
5. For the purposes of semester scholastic honors, a student must complete at least 12 graded credit hours with grade averages now required and credit in any credit-no-credit course (s) he is enrolled in. Neither credit nor no credit grades from such courses shall be included in the grade point average.

6. The present rules of dropping or changing courses shall not be affected by this resolution.
