APRIL 8-10, 2019 | SALY, SENEGAL

**SAVE THE DATE** for this year's Feed the Future Innovation Lab for Collaborative Research on Sustainable Intensification (SIIL) Annual Meeting. SIIL subawardees, external advisory board, collaborators, management entity staff, and USAID representatives will gather on April 8-10 at the Palm Beach Hotel in Saly, Senegal. Additionally, we are excited to welcome Peace Corps volunteers, as well as ISRA and university research scholars, to join us for the meeting.

The event will feature SIIL consortia and project presentations, field visits, and the opportunity to network with partners and visit the Center for Regional Drought Adaptation Improvement (CERAAS) in Thies, Senegal.

*Registration details will be made available late January 2019.*
