

**"The enthusiasm and diligence of the research team in the U.S. and in Cambodia have inspired me to continue in my own work with the current inability to visit due to the pandemic. Until then I'll continue to remain optimistic and focused on producing the best work I can."**

**Gracie Pekarck**

*S3-Cambodia: Scaling Suitable Sustainable Technologies*

Gracie is earning her Master's in Agriculture Leadership and Education at the University of Tennessee in the U.S.

Collaborative Research on Sustainable Intensification
