

## **AMETH 351 African American Perspectives: Black Health and Justice Dr. Clark**

**Tuesday/Thursday, 9:30-10:45 am**

Join us on an enlightening journey into health and justice within Black communities. This course combines engaging films, community projects, and stimulating readings to reveal how history, policy, and social structures shape health outcomes. Explore critical issues like health disparities and environmental justice and discover the proactive steps communities are taking to drive change.
