

## **GWSS 810: Key Concepts in GWSS**

Dr. Poll

T: 3:55-4:45

Online section also available

This graduate seminar in Gender, Women, and Sexuality Studies will explore core concepts, research methods and methodologies, and feminist theories in a variety of foundational GWSS readings. We begin with key feminist texts and culminate in an exploration of eco-critical and critical race feminisms. Students will develop resources to work with their own graduate research. This course fulfills the core requirement for the Graduate Certificate in Gender, Women, and Sexuality Studies.
