

STRAN 600: Pathways to Social Change

Dr. Levitt

TU: 11:30-12:45

This course will prepare students for graduation in a fun and supportive cohort environment where they will learn how to find a meaningful career, live their values, and chart their own paths to success. This is a seminar-style course in which students get to work closely with Dr. Levitt and their peers to design and launch a research-based social transformation project on a topic and in a form of their choosing. It is open to all interested juniors and seniors & is required for STRAN Majors.
