V. HCS Report – Paul Volino: Paul Volino is representing LaVerne Williamson as she had an emergency she needed to attend. He is here to answer any questions we may have. Question – Mid-year and Annual Review, do we know when this will be announced? Paul reports that there should be an announcement on this soon.

VI. Administration and Finance Report – Tara Fronce: No report, happy to answer questions. Issues with outside doors locked – going back to doors being opened at 7:00 am? Tara has not heard a firm date on the timeframe for this. It seems some doors on campus remain locked and others are open, it seems to vary depending upon occupancy of each building. Parking permit renewals are out – what is the status of parking on campus for this year with people working remotely? August 3rd has been stated to be the date for new passes needed. Another question - Some offices will be working on campus for only a few days per week – will Parking address this situation? Tara reached out to Jeff Barnes regarding this question during our meeting. He indicated enforcement will begin on August 3. They recognize it will take some time for permits to be distributed, so they will be issuing warnings to start. For individuals only working on campus 1 or 2 days a week, an option might be to purchase 1-day permits if it is less expensive for the individual than a yearly pass.

VII. Unclassified Professionals Committee Report – Mishelle Hay McCammant: no report.

VIII. President/Executive Council Report – Cynthia Slover: Jay Stephens is working with employee relations on the mid-year and annual review suspensions. Diana Hutchinson and Casey Lauer are looking at ventilation and classroom spaces limiting capacity to provide social distancing. Facilities Purchasing is working on procuring supplies. The disinfecting wipes are the biggest challenge. Alcohol based hand
sanitizers are being provided near building entrances and classrooms to provide safety. USS Senate Budget has no changes for this year, we are grateful for this. There are no active COVID-19 cases on campus at this time. Athletes do not return to campus until at least August 13. Cyndi asked about the Career website – that they had not seen any boxes to check for USS employees. Is this a difference if there are no open positions, will the box not show? He did not think this was the case but he will check on that for us. Water quality in drinking fountains will be checked as there is a question on bacteria due to water being off for a period of time. Cyndi asked at what point will campus close if we see cases on campus. The response was that we are following CDC guidelines and any closures mandated by Governor Kelly. Another item – we had a meeting with President Myers, Provost Taber, Jay Stephens, Faculty/Staff Leadership as we all met previous to the furloughs to discuss items. I sent an email with all of the links to the meeting in which President Myers with announce the furlough information. I encourage everyone to watch this. It must be announced 30 days prior to the first date furloughs can be taken. Committee Meetings – how would we like to handle these meetings? Each committee co-chair will decide how each committee would like to meet each month between Senate meetings.

H. Faculty Senate Committee on Technology: Updates were given on upgrading technology in the GU classrooms. ITAC will be installing camera/mic equipment in over 100 classrooms before the start of classes if equipment arrives on time. There were some classrooms that were left off the list either because they already had technology that did not need to be replaced or had some other structural issue that prevented the equipment from working properly. Departmental spaces (classrooms and lab spaces) will be the responsibility of each department to install equipment as needed. ITAC also gave an update on their budget. They had a 1.2 million dollar cut so they are having to put off some projects as well as implement staff reductions. Also discussed the use of Top Hat. The students had opposed its use last spring as there are extra costs for it. Many of the Top Hat features can be found in CANVAS or platforms that do not require an extra fee and will be encouraged to use CANVAS or other free platforms with
additional training being offered.
