

# KSU Amateur Radio Club

## WØQQQ

### Minutes - October 2, 2006

---

The monthly meeting was called to order at 7:15 P.M. in 401 Seaton Hall by president Mark Benfer, KCØQAS.

It was moved and seconded that we reimburse Mike Spottswood, KCØIWH, in the amount of \$39.85 for RG-8X coaxial cable and rope for a dipole project. The motion passed.

The club members worked on reorganizing our lockers and storage cabinets. While not everything was done, excellent progress was made and valuable equipment was secured.

Mike Spottswood has successfully repaired the pop machine, having discovered a previously-unknown fuse. A cash bar was opened for members who had a quarter. Thanks to Mike for the cleaning, troubleshooting and restocking he did.

University Facilities has repaired our drooping roof door and our window air conditioner. Facilities gave us a free bonus: a chain and spring assembly for the roof door. Now the trick will be to get them to replace the deteriorating particle board door on the Auxiliary Weapons Room.

Tonight's program was on HF linear amplifiers.

David, KAØJPM, presented an impromptu program on Cascading Style Sheets for Web pages.

Mike Spottswood provided a tour of recent upgrades he's been responsible for. We got to see the renovated Hammarlund® speaker, the new resistors on the 2m repeater (for dropping fan speed) and the new lugs (with yellow insulators) on the 12-volt power supply for the repeater.

Does anyone know what happened to our Heil® Pro Set microphone for the HF station? It has disappeared. It cost us \$155.

Plans were discussed for installing the W9INN dipole we bought in 2003.

The club informally agreed to finance the cost of framing our club's certificate recognizing 50 years of affiliation with the American Radio Relay League.

Club members intend to operate WØQQQ in the ARRL November Sweepstakes. Quack Quack Quack is back.

The meeting was adjourned at 9:00 P.M.

David Yoder, KAØJPM  
Secretary-Treasurer
