

Amateur Radio Club at Kansas State University WØQQQ

Minutes - October 26, 2008

The club met briefly in 401 Seaton Hall.

- It was proposed to buy two multiband handheld radios to use for foxhunts, etc. Each radio is to cost less than \$200. The motion passed.
- David, KAØJPM, reported that he went over to the station the previous Monday to investigate misbehavior by the 2-meter version of WØQQQ/R. It was kerchunking every five seconds or so, and the heat sink on the transmitter was extremely hot. As a result, the repeater was shut down. The repeater was restarted during the meeting with good results.
- The club is looking for group activities.

David Yoder, KAØJPM
Secretary-Treasurer
