

Brain structures related to courage and conscience

- RAS and senses
- Amygdala
- Hypothalamus
- Thalamus
- Hippocampus
- Anterior cingulate
- Orbitofrontal cortex
- Temporal lobe

¹ This graphic is intended to show the primary structures of the brain that have an effect on the *Eight Steps* to courage found in *Raising Courageous Kids: Eight Steps to Practical Heroism* by Charles A. Smith (Sorin Books, 2004). Like other resources at <http://www.raisingcourageouskids.com> created by the author, it is likely to be revised. The role of each brain structure will be described in author presentations and workshops. Send your suggestions and comments to casmith@ksu.edu.
